Agenda Item # 23**

**Public Hearings on the Proposed Special Improvement Liens for
Cloudland Drive Paving Project**

Meeting of Tuesday, May 13, 2008

This document distributed: May 13, 2008

Cloudland Drive
Agenda 5/13/08

May 8, 2008

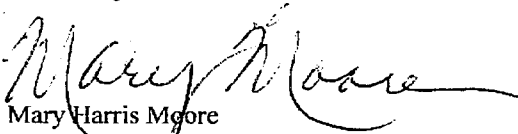

To Whom It May Concern:

Let me preface this letter by saying that the Cloudland Drive Project gives the street an entirely new look. It has totally transformed the street to a very tranquil and serene environment with a canopy feeling from the trees that overarch the street. Since the transformation, I have seen families moving about pushing kids in strollers, joggers running swiftly by and a friendliness I had not experienced before. The entire street has taken on a new and inviting persona.

To get to the issue at hand which involves how the project will be paid for, I am in favor of the per lot assessment as outlined by the county. It seems only fair that each person should pay for the lot that he occupies on an equal cost basis. As a neighborhood, we should be considered as one and all of the costs should be borne equally by all parties involved.

As I will be in Jacksonville and cannot be in attendance at the meeting on Tuesday, May 13th, I should like to have my vote counted toward the per lot taxation with the costs borne equally by all Cloudland Drive residents.

Cordially,

Mary Harris Moore
3034 Cloudland Drive
